

ance by the gentlemen is also on the tapis as a feature of a not far-off special. President C. L. Berry and V. P. Hickey, who it is said, in their time have drawn many a good month's salary in none less than professional organizations for their exorbitantly funny work, are bidden to lead down the ends. Dr. M. W. Shaw, as interlocutor, will fill the place of a society, and several surprising specialties are on the programme.

The first Opal club ball for this season, which takes place at Christensen's hall on Friday evening, Nov. 23, will be an unequalled success, judging from the interest already betrayed in the announcement that the club is to give a series of dancing parties during the season. For the coming party 100 tickets have been issued. Each member will have one ticket to dispose of in addition to his own. This plan does away with the indiscriminate placing of tickets and ensures a select crowd. The committees appointed to have the affair in charge are hard at work.

The bride wore her mother's wedding gown of white swiss and carried white roses. She had no attendants. The young couple will continue to reside in the city, where they have many friends to wish them happiness.

The members of St. Peter's guild give an entertainment Wednesday evening at St. Mark's school house to which the following unique invitations have been issued:

Will you come to our Birthday Party. And bring for each year of your life A penny with greetings most hearty, Away from all heartache and strife.

The number a secret we surely will keep. So ladies come cheerfully too. And fish in our pond—while the long shadows creep. Then repose in peace the night through.

News of the Clubs.

At the meeting of the Ladies' Literary club Friday afternoon the programme was one of more than usual interest. Doct. Edgeway gave a paper on the "Prophets of the Nineteenth Century," and Mrs. Thomas Weir gave the history of the Nineteenth Century. The programme closed with a beautiful vocal selection by Mrs. A. T. Vollmer.

Dean Eddie's paper was in part as follows:

In King David's army was a chosen band who attained to the first rank by deeds of daring and heroism. And over them were the three mightiest, bravest and most distinguished. One would indeed at this time be bold to presume to select Browning, Ruskin and Tolstol as the three greatest among all distinguished prophets of this century. Future generations must decide as to their comparative merits, their respective places in the temple of fame. But these three are certainly representative men of our century, prophets whose messages have been spoken most clearly, whose influence has above all others helped to mould the thoughts, actions and ideals of the present generation. As prophets they were very unlike; as men they were even much more unlike.

Browning, the poet, Ruskin, the art critic and sociologist, Tolstol, the radical social reformer. These three men, who indeed are prophets, not men who foretold future events (for that is not the real function of the prophet), but who did what is much greater, lived in advance of their time; men in whom dwelt in its greatest fullness the spirit of our universal humanity; who lived in the fuller light of God; who understood and realized the highest aspirations of the race, aspirations that are being expressed by slow degrees, more and more, in the deeds and activities of mankind. This being the place and function of the prophet, it is inevitable but that in his own day he should be unappreciated, misunderstood, misjudged. His own generation generally makes him a martyr and succeeding generations build his monument and garnish his tomb.

In regard to Browning's life there was very little of adventure or romance in it, but so much of virtue and love and beauty.

Every prophet has a message. It is his message that constitutes him a prophet. What can we say of Browning's message—a message for humanity for today, and tomorrow, and all time? Not all that Browning has written is a message to any one individual or class; but men and women of all sorts and conditions will find a message in what Browning has written. The great value of his poetry lies in embracing essentially all that is human and spiritual. "His voice sounds loud and clear for the things that are as race we like best—the fascination of faith, the acceptance of life, the respect for its mysteries, the endurance of its charges, the vitality of the will, the validity of character, the beauty of action, the seriousness, above all, of the human passion."

Speaking of Ruskin he said: Of all the prophets that have made our century so glorious not one has shed over it a more brilliant or sweeter light than John Ruskin. Versatile, many-sided, he was a poet, painter, political economist, and above all a prophet. He wrote more than forty books dealing with art, architecture, history, science and political economy, and yet he was an authority on every subject he took in hand, flooding it with a fuller light and clothing it in a more attractive garb.

Of his life nothing can be said that is not familiar to all. In "Pors Clavigera" and "Practica" he himself has given us a summary of the forces that went to form his character and that lie at the source of all his achievements. The broad, thorough grasp of his material, the influence of Turner and Carlyle upon him, his unhappy marriage, his authority as an art critic, his popularity as a writer, are all matters of common knowledge.

In regard to Tolstol I shall trespass on your time and patience but for a moment. He has not yet written his last sentence, uttered the last word of his message. The last chapter of his erratic career has yet to be told. Critics have yet to make an impartial estimate of this prophet and his message. If inconsistency is the privilege of genius, Tolstol has availed himself of this privilege to the fullest extent. He is at once a mystic and realist, a poet and a peasant. He is equally at home with the prince or the beggar, and the most acute of observers, embracing the minutest details, and yet grasping general principles and far-reaching issues. He has penetrated probably as far as they have ever been penetrated by mortal man the secrets of life and death and given us the results in realistic glowing description.

The Reviewers.

The topic at the Reviewers on Monday was given by Mrs. Ellen Elliott, who read a thoughtful paper on "Suggestive Therapeutics as a Psychological Treatment." She defined practical psychology briefly as a knowledge of the power within, the art of successfully directing the mind along the desired channel and of making one think.

The application of this science to physical life of the body is known as suggestive therapeutics. Mrs. Elliott showed that the modern systems known as mind or faith cure are different avenues where suggestion may be used.

Next the speaker explained the theories of a few modern psychologists, such as Thomas J. Hudson, Dr. Elmer Gates and others that adopt the dual

mental organization of man. She then took up the different modes in which suggestion can be used—verbally mentally, by hypnosis, and by auto-suggestion. In this connection she read letters from noted scientists, notably Professor Barnes of Boston and Dr. Gates of Washington, D. C. Mrs. Elliott said that one great important branch of this science is auto-suggestion, which plays the subtle role in every psychological experiment. Indeed, the power of self-help is the most important part of mental therapeutics. Without it the science is of comparatively little value or benefit to mankind. It is the power to resist disease, to prevent sickness, as well as to cure it.

Another method of using suggestion is in connection with music or electricity, and is called masked suggestion.

This science can also be used in training children and in character building to great advantage by mothers and teachers. Froebel built his wonderful kindergarten system upon psychological principles pure and simple, reaching out to the child's mind, heart and hand through suggestive songs and plays.

The Cleofan.

Miss Emmeline Wells entertained the members of the Cleofan Saturday afternoon. "The Religious Revival at the Time of the Stuarts" was the subject of an interesting paper by Mrs. H. L. A. Culmer. Miss Jennie Calder told the life of William Pitt.

At the close of the programme tea was served and a social half hour enjoyed.

Woman's Athenaeum.

(Special Correspondence) Park City, Nov. 10.—The Woman's Athenaeum met with Mrs. A. Pike Monday afternoon and a most interesting programme was had. The president and twenty-four members were present. After the business was disposed of Mrs. Walter Scott, who was elected delegate to represent the Woman's Athenaeum at the state federation, held in Salt Lake Oct. 25, 26 and 27, gave a very interesting report of the proposed public library and reading room, reported the number of papers returned to her, also report of the sum promised to the ladies who canvassed the town. Mrs. M. F. Allen and Miss Cora Snyder then played "In Her Step" (in autumn.) Mrs. John Densang very sweetly a soprano solo "Good Morning," by Greig.

Mr. Allen, director of the programme, music and art, took the chair and the following papers were given. In the absence of Miss Kessel her paper, "Architecture and Temples of Ancient Egypt," was read by Miss Jean Pearson. "Memories of a Musical Life," William Mason L. was the subject of Mrs. Lamb's paper. "Art in the Public Schools," was the paper prepared by Mrs. D. C. McLaughlin, but as the lady was to ill to be present it was decided
